

INTRODUCTION

CHRIST RETURNS TO SPEAK HIS TRUTH

He says:

‘I have come to rectify the misinterpretations placed on the teachings given when known as ‘JESUS’ in Palestine, 2000 years ago.’

He also says:

‘Because people are on the threshold of a world crisis of enormous proportions, it is vital for survival that **I, the Christ**, should reach all who will listen. You know little of the true processes of creation in which you, yourselves, play a major role. It is imperative you should understand them sufficiently to enable you to embark on the implementation of a higher vision for all humanity.

‘It is impossible for my spiritual consciousness to take on human form; to enable me to speak to you directly, I have de-programmed and prepared a receptive, obedient mind to receive my Truth and frame it in words. She is my ‘recorder’.’

Recorder: Before reading **Christ’s Letters**, you may want to know how this spiritual exercise of transmission of consciousness was achieved.

The work of preparing me to become Christ’s recorder began 40 years ago, when as a committed Christian, encountering grievous difficulties as a farmer, and asking Christ for help, an unexpected forceful answer caused me to re-examine and discard all religious dogma.

Enlightenment followed and clearly led in new directions of work and study, I founded a business dealing with people, which flourished. For seven years I enjoyed success and much happiness. To grow in spiritual understanding, I then went through diverse very traumatic human experiences and after much suffering, painfully and gainfully learnt their lessons then transcended them spiritually.

One evening, in response to prayer for guidance, the presence of Christ became a reality, who gave me irrefutable proof of his identity. He spoke to me for an hour, sending strong waves of Cosmic Love through my body and gave me a brief description of what I was to be taught and eventually achieve. A fortnight later, he led me through a transcendent experience of Conscious Union with ‘God’. I became a healer and instrumental in some instantaneous healings.

From 1966-1978, at important points of my life, in response to questioning, Christ instructed me in spiritual-scientific principles, now explained by Christ in his **Letters**. In 1975, I experienced a night of visions describing events between 1983 and 1994, all of which came true. I was again told there would be work for me to do in the future.

Eventually, after many and varied vicissitudes, always alleviated by my strong connection with Christ and my deepening understanding and personal experience of ‘First Cause’, I was brought to my present home. Here, I have lived an increasingly solitary life in the past twenty years, sometimes in clear and close contact with Christ and sometimes left to strengthen my faith and patience in the spiritually dry periods. In the past four years I have been led through mental/emotional purification, reaching my goal of perfect inner peace and joy.

Christ has put me through a gradual but very clear refining process. When perfectly empty of self, malleable and receptive - the Voice began its dictation and the Letters began to take shape.

These Letters are entirely the work of Christ. Nothing in them has been derived from other literature, although in recent years, certain writers have obviously drawn much of their own inspired insight from Christ’s conscious radiation of Truth. All those who are in harmony with his Consciousness are greatly blest. I am merely the ‘Recorder’ - nothing more.

N.B. Christ specifically says: If readers quote from Christ's Letters, the Source of the quotations *must be clearly* named: CHRIST'S LETTERS from CHRIST'S WAY.

If you feel you would like to assist in publicising and translating **Christ's Letters** into other languages, donations may be deposited: ABSA, Hayfields, Pietermaritzburg, South Africa. 'Christ's Way', Account no: 908742 1105, Type: Savings.

CHRIST SPEAKS HIS TRUTH.

Letter 1. Christ speaks of his reasons for returning to dictate these **Letters**. Says that mankind bring their own woes upon them through their thoughts and actions. Explains why his true mission on earth was not recorded properly. Says there is no such thing as 'sin against God' neither is our true **Source of Being** understood. Describes his six weeks in the desert and what really took place - what he learnt and how the knowledge changed him from rebel to Master and Healer.

Letter 2. Continues the story of his life on earth, his return to his mother in Nazareth and reception! His first public healing and the tremendous response. Choosing disciples. His true teachings.

Letter 3. Continues life incidents, teachings, his awareness that his time on earth was to be cut short by crucifixion. The things he did to arouse the anger of the Jewish Religious Leaders. What really took place and was said at the 'Last supper', the disciples' attitudes, and the truth concerning his 'ascension'.

Letter 3A. **Christ** gathers up the threads of his teachings in Palestine and says that he and Muhammad, Buddha and all other Masters have continued to develop spiritually until they have all ascended into **CHRIST CONSCIOUSNESS**. Christ speaks of the truth of the sexual relationship, saying that the attitude between men and women will eventually change. Spiritual progress will take place and children with new spiritual potential will be born.

Letter 4A. & B. **Christ** begins to explain the true processes of creation. He touches on what science and religious doctrines have believed, rejects them and defines the **TRUTH of BEING**. **He** touches on the truth regarding the human ego, - the means of earthly individuality and therefore necessary, but also the source of all suffering.

Letter 5. **Christ** describes the truth concerning the sexual act - what really takes place spiritually and physically. How children are born on different levels of consciousness. He explains men and women's place in the world order.

Letter 6. **Christ** explains the reality of men and women, how to live within the **LAWS of EXISTENCE** and come into a state of harmless blessed state of being in which all things are abundantly provided, health is restored, and joy becomes a natural state of mind. Every individual

can reach this interior state of blessedness, and peace will then become the norm.

Letter 7. **Christ** ties up loose ends of his other **Letters** and tells people plainly how to overcome

3

the ego, gain true self-esteem and experience the joy of perfect inner peace. He touches on racism

and a personal message of encouragement and love to all who are drawn to his **Letters**.
